

## WHY SHOULD YOU PARTICIPATE?

Youth and Family voices bring compassion, understanding and inspiration to system change. Your voice matters and the FYSVRT provides a safe place for you to be heard. Help move the behavioral health system beyond treatment to resiliency and hope!

We are currently recruiting family and youth members who have lived experience with mental health and/or recovery services funded by Medicaid in Washington State to assist in improving the system of care.

## You are invited to join the local efforts in your community!

## Goals of the Group

## WHAT IS THE FAMILY YOUTH SYSTEM PARTNER ROUND TABLE?

The FYSVRT is a forum for families, youth and system partners to discuss the quality of local mental health services and participate in solving identified challenges to improve the system. The FYSVRT is part of the governing infrastructure of the Washington State Children's Behavioral Health System.

**RESPECT-** Families and youth, as well as system partners, will value what each brings to the table without judgment.

**EQUITY-** All members have an equal voice at the table.

**GIVE AND TAKE-** Everyone learns and everyone teaches. All members will contribute in achieving the identified goals of the group.

**EMPOWERMENT-** We welcome the voice of our partners in sharing strengths and needs regarding mental health services for youth. Information and feedback discussed at FYSVRTs have the potential to initiate and influence system-wide change at the local and statewide level.

## FYSVRT Vision Statement

Through respectful partnerships, families, youth, systems and communities collaborate, influence, and provide leadership to address challenges and barriers by promoting cohesive behavioral health services for children, youth and families in Washington State
