

Southwest Washington FYSVRT Strategic Plan Framework

The following strategic plan framework was initially developed during Fiscal Year 2016-2017 time period and then updated during the fall of 2018. This reflects an update to the strategic plan framework from the previous years and builds upon the work that has been done since the inception of SW WA FYSVRT in 2015. The process that was used to develop the strategic plan framework included a Strengths-Weaknesses-Opportunities-Threats (SWOT) analysis during the course of several FYSVRT meetings, smaller meetings with the FYSVRT Leadership and input from community partners, and most importantly youth and families. Through this open process, members of the FYSVRT outlined their goals and priorities, identified gaps and needs, and agreed to use meeting ongoing for tracking progress and outcomes.

The following are the three most important goals that were identified:

- 1) Attract more youth and families to FYSVRT by:
 - a. Engaging with area schools
 - b. Continuing to hold community events and participating in outreach activities
 - c. Utilizing Social Media to build youth voice
 - d. Targeting individuals with lived experience to participate
- 2) Improve the monthly meetings by providing adequate time for reflection and discussion
- 3) Improve the “branding” of FYSVRT to better demonstrate purpose and personality

The following are the three most important *system goals* the SW WA FYSVRT will work on in 2019:
